SKILLS

- Coding expertise
- Web developing
- Writing literature review
- Python language
- Problem solving
- Teamwork
- Public Relations
- Effective Communication
- Critical Thinking
- Willingness to learn

LANGUAGES

- English (Fluent)

ABOUT ME

I am a motivated Computer Science and Engineering (CSE) student with a strong foundation in programming and data structures. I have a keen interest in learning new technologies and applying theoretical concepts to practical, real-world projects. I am continuously working to enhance my technical, problem-solving, and development skills, and I am eager to gain hands-on experience in a professional environment through internships. I am proficient in English communication and actively committed to **continuous learning through courses such as CS50 and Full Stack Web Development using MERN.**

WORK EXPERIENCE

Tuition
2022-CURRENT

- I have been teaching class 9-10 and college students for three years.

Project
2023-2025

I was working on some projects:

- BTC Price prediction with polynomial regression

- Enhancing Soft-Tissue Tumor Diagnosis: Deep Learning Classification of Lipoma and Well-Differentiated Liposarcoma (WDLPS)

- DengueCare website

- Post-Harvest Loss Reduction Through Smart Packaging (Tomato)

- Line Follower Robot

- Smart Greenhouse Communication for Urban Market Integration: Providing Real-Time Crop Data To Optimize Harvest and Order Placement
